

CZECH ENVIRONMENTAL INFORMATION AGENCY

Environmental map services

Jiří Hradec

The environmental data

- Access to the environmental information enforced by law
- More than 2500 GI datasets
- Decent metadata coverage (<u>mis.env.cz</u>)
- Continuous identification of user needs
 - State administration
 - The public
 - NGOs, industry, schools, etc.

Map services

- Long tradition (public since 1997)
- Publishing
 - Data/Information
 - Contextual information
 - Use cases, recommendations, support
 - Civil cases
 - Data on demand (from the linked sources)
 - Limited risk assessment and warning (floods)
- Exponential growth of visitors

Mapmaker

- Developed since 2000, written in PHP/C++
- Open Source (almost ready)
- Available for free for State administration
- OGC/ESRI compliant
- Runs on top of ESRI/Intergraph/Autodesk/Minnesota map servers connecting any of them using (still) proprietary protocol (OGC extension)
- On-line access to data (ESRI, WMS)
- Cheap scalable solution, runs at 80+ sites in CZ http://geoportal.cenia.cz

Mapmaker design

geoportal.cenia.cz

State administration

Velikost okna mapy úlohy:

- malé (800 x 600)
- střední (1024 x 768)
- velké (1152 x 864)
